The school year ends . . .

. on the upbeat

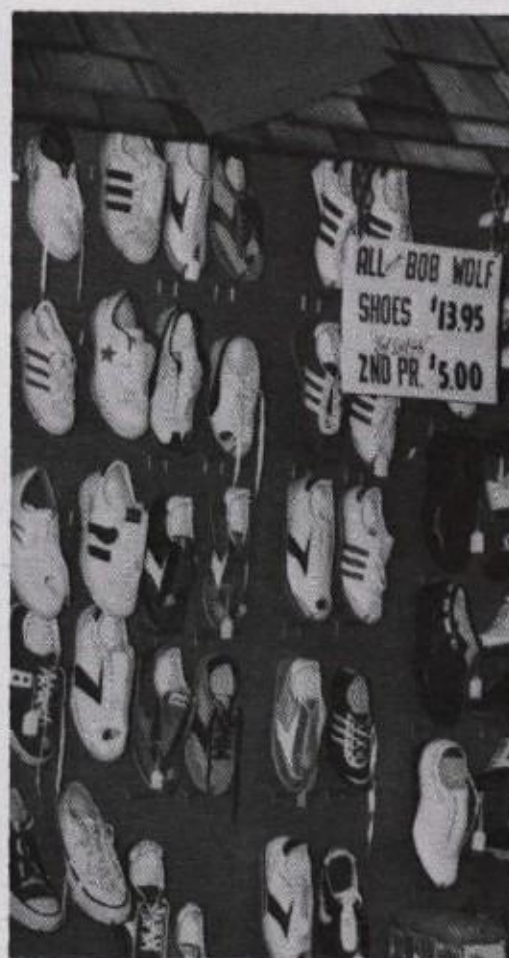

In a flurry of activities, the school year closes. The annual awards assembly, the closing of the library, and Baccalaureate services come in quick succession. Then Commencement!

Nineteen-hundred-seventy-six school year ends on the upbeat with new graduates, new Athletic Director Pat Tone, and an excavation on campus that promises to be the city-school Bicentennial Swimming Pool. Other new facilities added to the campus include sidewalks to vocational buildings, an all-weather track, and the new baseball field.

We're getting ready for your generation.

In the years ahead you'll need more electricity than you're using right now because there's a lot to be done. Like new jobs, more efficient homemaking, health care and cleaning up the environment. Right now Texas Electric is building new lignite coal and nuclear-fueled power plants that will help make sure you have the electricity you're going to need.
